

## Directions from West and Central to Hidden Valley Motel, Boone, NC, 28607

My start directions in the area of Knoxville, TN

90 miles more or less northeast on I-81 to the junction of I-81 and I-26, I think this is exit 57A and you will be travelling towards Johnson City, TN.

15 miles more or less to Johnson City where we want to exit onto Hwy 321 towards Elizabethton, TN, I think this is exit 24.

8 miles more or less to Elizabethton, TN, much of this is 4 lane divided highway, as you begin to enter Elizabethton the highway is no longer divided and speed limits are lower. You will pass several car dealers on your right, later a Wal-Mart on your left, traffic gets heavier and the road forks, you want to take the fork to the left, in another mile or so you will want to turn right on Hwy 19E

5 miles more or less to Hampton, TN, (Note, the highway sign says to take a left turn on Hwy 321 to Boone, please don't, unless you want the long scenic tour), at Hampton continue on Hwy 19E to Roan Mountain, TN.

10 miles more or less to Roan Mountain, TN, continue on Hwy 19E

10 miles more or less to Elk Park, NC, just as you travel through Elk Park you need to make a left turn onto NC Hwy 194

8 miles more or less on Hwy NC 194 to a traffic light at Banner Elk where you want to make a right turn. A few blocks before reaching the traffic light the road to the ski area at Beech Mountain is on your left.

4 miles to a traffic light at Hwy 105, the entrance to Sugar Mountain Ski area will be on your right along this section. You want to make a left turn at Hwy 105.

4 miles downhill on Hwy 105 to Hidden Valley Motel, we are on the right side of the highway. As you near our location you will pass a fire station on your left, Foscoe Mining Co. on your left, a gas station on the right, and antique mall on the right and Swedish Werke auto center before you reach our location.
